No

Yes

Time management

NA

When I was giving a presentation in front of people, I find there are a lot of things that are challenging. I had to be prepared for audience members that may know more about the subject, the questions they had asked to me and to my group members. The most challenging part was the questions that could be asked by the faculty members. And we made sure that we knew the answers.

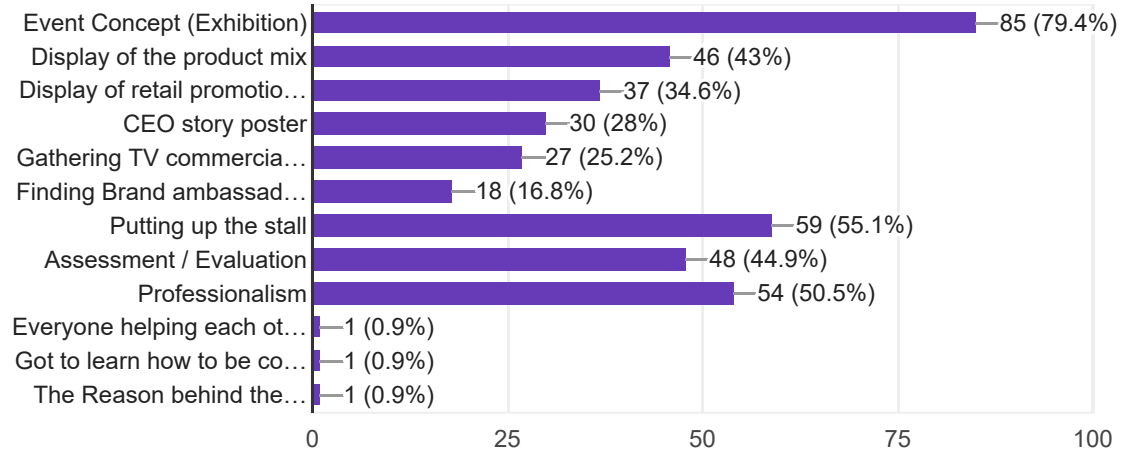

Yes team coordination

NA

It was a great experience to be a part of mega expo. I got to know about many companies, how they work and each and everything about them. It was very knowledgeable and exciting.

Good expo to learn about the company and their marketing strategy

Overall experience was excellent, know about many companies, build the confidence level.

It was good

It was a very grate experience for me. I learn lot of things. It was my biggest and longest project which i did. And also support and guidance of teachers also play an important role.

Share your most memorable moment of the EXHIBITION
